## 60Beat Blue HR

### 60beat Cardio BlueHR

Turn your iPhone/Smartphone into a heart rate monitor!

Now you can use **60beat BlueHR** and APPStore to shape a heart rate monitor based on user needs and update it every time you want!

Listen to your favorite music, follow your GPS track, connect to social networks, post on Facebook and monitor your heart rate, they are all available from your smartphone!

Joining together **60beat BlueHR** and your smartphone, you'll be no longer bound to purchase many different hardware devices: just download a new App to change features of your heart rate monitor (with very low costs).

Use:

***60 beat BlueHR is easy to use: just wear it, download a compatible App (many are already available), turn on the Bluetooth function on your Smartphone, pair the BlueHR with your device following the user guide inside of the selected App!***
